

TRANSNET AFX

DEGREASER / STRIPPER

DESCRIPTION

TRANSNET AFX is a foaming, wetting detergent also effective against scale.
Its high wetting power enables it to apply less product for the same surface.
It applies in particular on greasy surfaces, inside tanks or even inside road tankers.

TRANSNET AFX eliminates vegetable and animal fats (tallow, all types of oils...).

TRANSNET AFX is perfect for stripping uncured adhesives.

However, it is recommended to use it with caution considering the glue diversity. It should also be used with caution on colored metals such as bronze or copper. It is recommended not to be used on light metals such as zinc or aluminum.

TRANSNET AFX will not leave traces over treated surfaces.

Due to its composition, it is applicable on surfaces in food contact in accordance with the legislation relating to the cleaning of equipment which may be in the incidental contact of foodstuffs. For this use, rinse with compulsory drinking water. (Decree of 08/09/99)

APPLICATION/INSTRUCTIONS FOR USE

By spraying: concentration of 0,5 to 1,5%.

By foaming: concentration of 3 to 5%.

Contact time required: 5 to 20 minutes.
