

TRANSNET DEG4 DEGREASER

DESCRIPTION

TRANSNET DEG4 is an emulsifiable degreasing solvent designed to clean the engines and mechanical parts of light vehicles, boats and public works.

The presence of surfactants makes it very effective for combating crude or refined mineral oil. Its enhanced dispersing power improves cleaning efficacy.

TRANSNET DEG4 is a mixture of organic solvents particularly recommended for the removal of grease stains. It penetrates deeply to attack and remove impurities from the surface to be cleaned.

TRANSNET DEG4 can be used on all substrates, including painted or aluminium substrates.

This solvent is designed to degrease heavily soiled surfaces such as engines or metal parts covered in heavy oil, petroleum grease or any other type of fuel. It is also suitable for highly encrusted surfaces such as tar spraying machines.

It has a very mild odour and low evaporation rate, thereby limiting the saturation of poorly ventilated environments (ship holds, cargo compartments, refinery storage tanks).

Due to its elevated flash point (62°C), it is non-flammable at room temperature. TRANSNET DEG4 therefore guarantees effectiveness and user safety.

APPLICATION/INSTRUCTIONS FOR USE

To be used pure or diluted in 3 to 5 volumes of water.

TRANSNET DEG4 can be applied by soaking or airless spraying and can be rinsed with cold water once the operation has been completed

When handling the product and parts, we recommend wearing solvent-resistant protective gloves.

TRANSNET – An ORAPI GROUP brand Parc Industriel de la Plaine de l'Ain - 225 allée des Cèdres - 01150 Saint-Vulbas – FRANCE Tel. +33 (0)4 74 40 20 25 - Fax +33 (0)4 74 40 20 26 - www.orapi.com

ORAPI [®] cannot know about every application for which the products are used nor their conditions of use. ORAPI [®] shall not be held responsible: for the suitability of its products for a given use or specific purpose, for the methods of application over which it has no control. The information contained here can on no account be a substitute for the preliminary tests which are essential and which must be carried out in order to check the suitability of the product to each specific case. The user of the product described in this technical data sheet is solely responsible for all measures required to protect people and property from hazards that may arise from the implementation and/or use of this product. Therefore, ORAPI [®] renounces any implicit or explicit guarantees, including guarantees relating to marketability or a certain purpose, resulting from the sale or use of its products. In particular, ORAPI [®] renounces any claims for incidental or consequential damages whatsoever, including financial operating losses.

CHARACTERISTICS

Aspect:	Clear liquid
pH (pure product):	Not applicable
pH at 10 g/l:	Not applicable
Density at 20°C:	0.8 +/- 0.02 g/cm ³
Freezing point:	
Flash point:	62°C
Colour:	Colourless to yellowish
Odour:	Low odour

The surface agents used in the design of our products comply with biodegradability criteria as defined in EC regulation No. 648/2004 relating to detergents.

PACKAGING

STORAGE

Store the product in a dry location in its original packaging.
